LB 136, 179

assign those costs to people that would be in the area and it appears to me, Senator Rumery, that your amendment to your bill kills your bill, and with that in mind, I will be opposing your amendment to your bill which really I shouldn't be doing because I should support the introducer but I believe that this is a very vital thing for first class cities across this state to pave those city streets that are surrounded by "farm land" which isn't farm land at all. It is just waiting to be speculative and build the city on. But in the meantime, those citizens that live on that dirt street can't get it paved and I think that is wrong.

SPEAKER MARVEL: Senator George.

SENATOR GEORGE: Thank you, Mr. President. I do support the amendment because there were several objections against the bill. In answer to Senator Kelly's objections, city councils now do that quite often when they start a street improvement district the voting can go by the footage, the front footage, therefore, this is not a new concept. It just puts it in the bill to put those questions to rest that have come up in recent days. Therefore, I do support the amendment.

SPEAKER MARVEL: The motion is the adoption of the Rumery amendment to LB 136. It is on Select File. All those in favor vote aye, opposed no. We are voting on...we have voted on the adoption. Record.
